

## The Buzz In Game

### You will need:

- A pile of building blocks (the more interesting pieces make the game more fun!)

### How to play:

- Each player chooses their 'buzz' sound. Your buzz could be a clap, whistle, beep or any other sound you can make. You can use buzzers if you have them.
- Put a pile of bricks and pieces in the middle. Player one chooses a piece without touching it or letting the others know which piece they have chosen.
- Player one describes the piece to the others.
- All players try to guess which piece is being described.
- Buzz in if you think you know.
- Whoever guesses the piece, gets the piece.
- Play moves to the next person who chooses a piece to describe.
- Once everyone has a nice pile of bricks, build a model with the pieces that have been won.
