

Instruction Construction: no talking allowed!

You will need:

- **A pile of bricks (matching pile for all players)**
- **Paper & pens**

How to play:

- **Player 1 is in charge first. They must build a model with their pieces without the other players seeing.**
- **Player 1 must give instructions to the other players on how to build the model - but the instructions must be drawn or written on the paper. NO TALKING! (see Build Behind the Barrier for the talking game!)**
- **The other players must try to follow the instructions to re-create the model.**
- **Whoever gets closest to the original model gets 10 points.**
- **Player 2 has a turn. Play continues around the group.**
- **To make it more challenging, why not add in a time limit!**
