

Speed Swap

You will need:

- A pile of building blocks
- A set of pieces for each player (each player must have the same pieces)

How to play:

- Put a big pile of bricks and pieces in the middle.
- Each player has another, smaller set in front of them. Each mini pile must have the same mix of pieces. (eg. each person has one 2x4 Blue, one 4x4 Red etc.)
- Player one calls out a piece from the mini piles. Other players have to listen carefully and if they guess the right piece, they can quickly swap their piece with one from the big pile in the middle.
- Only the first person to guess gets to make the swap.
- Player two has a turn to describe a piece from the mini piles.
- Keep playing until you feel like building with your new pile of blocks.
