

## Hopes and Wishes

### You will need:

- A pile of bricks, vehicles, minifigures and pieces

### How to play:

- Think about what you would like.
- This might be something you would like to get better at, like organising your time better or eating all of your vegetables.
- It might be something to do with your future - what would you like to do when you are older or what job do you think would be interesting and exciting?
- Think about if you were a magician with a magic wand—what would you change if you could?
- Now build your ideas. These are your hopes and wishes. Show your models to others and share your thoughts with family and friends.
