

## Stack My Way (BB Tots)

### You will need:

- Duplo or Mega Blocks  
Bricks

### How to play:

- Put a pile of building bricks in the middle. Let your child or children start to play.
- Watch how they stack the bricks and copy them, using the same colours and sizes.
- As you stack, talk about what you are doing; e.g. 'We are putting a red on top of a blue', 'Now we are putting a small, black one underneath'.
- Continue to mirror and play alongside for a few minutes.
- When your child becomes interested in what you are doing (looking towards you, smiling, taking bricks from you etc) start to make your own stacks.
- Tell them what you are doing, and offer them the same colours and encourage them to copy.
- Take it in turns to stack and follow their lead on where the play goes next - knocking them down or adding stacks together?
